CORPORATE OFFICE CENTERS ANNOUNCES COAST-TO- COAST LOCATIONS

Corporate Office Centers opens 28th location in Boca Raton, FL.

ARLINGTON, TX (June 10, 2009) - Corporate Office Centers, one of the U.S.' largest executive office business center operators, has added its 28th national location and its first location in Florida. With this addition, Corporate Office Centers now offers office and business services from coast-to-coast.

Located at 595 South Federal Highway in Boca Raton, Corporate Office Centers' Royal Palm center provides immediate office space and business services featuring flexible terms at a fraction of the cost of conventional office space. "The Royal Palm center propels us into the next phase of our growth initiatives. We are pleased to be able to offer offices and services from the west coast to the eastern seaboard," said Thad Pittman, President. "Each of our 28 locations is in strategically chosen markets and our Boca Raton center is no exception." Pittman said.

The Royal Palm center is set in the bustling Boca Raton financial district. From its perch on the top floor of the building, the offices boast penthouse views of the ocean, Boca Raton Resort and golf course, and downtown Boca Raton. The office infrastructure is occupant ready and offices are available furnished or unfurnished, and include phone, high-speed internet services and conference rooms to host client and company meetings. Information technology and administrative services are also available on an as-needed basis, eliminating the need for part- or full-time employees, employee taxes and benefits, and human resource issues. The building amenities include an upscale café, bank with drive-thru service, covered parking and optional valet parking. Mizner Park is minutes away, providing a variety of fine shopping and dining establishments.

The combined elements of term options, no capital expenditure, administrative services and immediate occupancy make an executive business center the perfect solution for individuals, small businesses and large corporations that require traditional office space alternatives, particularly in today's trend of financial reevaluation that many times result in a company's contraction of space needs. By opting for executive suites, the flexibility afforded allows tailored solutions that contract and expand office space and services based on the ever changing needs of business plans. Business center services are also ideal for disaster preparedness plans that can be predesigned and priced to allow for immediate move-in.

Corporate Office Centers also offer Virtual Office plans. Professional address, phone answering and conference room access can be customized to meet the precise needs of a business' development plan and are an outstanding option for start up businesses or work at home professionals that wish to separate their business from their homes. The plans are priced significantly lower than the cost of a brick and mortar office space and are the perfect entrée into a business center environment with the option to upgrade to an office at any time. Regional offices of larger corporations can benefit from these plans by setting up Virtual Offices for their field representatives, providing a professional business address and conference rooms to meet with clients and prospects.

Pittman is confident that the Boca Raton location will be the start of a new era for the company. "Clearly, the table is set for Corporate Office Centers to continue on its steady path of growth and commitment to offer exceptional office space and services at a great value" said Pittman.
